Alicia:

That works okay for me.

Tom

Hello Alicia,

It looks like Sept 7th will work fine for a site visit. They will be starting up surface water sampling that week so it will be a good time for a visit. How does 9:00 am work for a start time. That allows me to leave Libby by 7:00 am and we should be able to get through a site visit in about 3 hours so you can get back on the road.

Mike

Mike and Mark,

Thanks for sending us the schedule and for having that call with us. It was really helpful. We really appreciate it. We will look through the CFAC/Roux website and follow up with you to request any documents we cannot find. Hopefully we will get you that email in the next few weeks.

Also, thanks for agreeing to let the NRDP technical folks go along on a site visit the next time you are up there. That will provide a nice overview.

It was nice talking to you. I have cc'ed the NRDP staff who were on our call so you have their emails.

Thanks again,

Katherine Haque-Hausrath
Assistant Attorney General
Montana Natural Resource Damage Program
